About GSN2024

Welcome to the Global Summit on Nursing (GSN), an event hosted by Heighten Science Conferences scheduled to be held on **May 09-10, 2024** under the theme “**Introducing new technology to the Nursing field**”.

This event is dedicated to advancing nursing science and equipping healthcare professionals with the latest insights for optimal patient care.

Global Summit on Nursing create a platform that brings together professionals worldwide, offering a global perspective on healthcare challenges, solutions, and best practices. Attendees gain insights into diverse healthcare systems and cultural approaches to patient care, fostering collaboration among healthcare professionals, including nurses, physicians, and administrators. Such collaborative efforts can lead to improvements in patient care, healthcare policies, and interdisciplinary teamwork.

These webinar also serve as a forum for nurses and researchers to present their latest findings, facilitating the dissemination of new information and advancements in nursing science. Attendees learn about evidence-based practices, innovative approaches to patient care, and have a valuable opportunity for networking with other healthcare professionals, researchers, and experts in the field. Networking at these events can result in collaborations, career opportunities, and the exchange of ideas.
